PROFESSIONAL SUMMARY

Software Engineering undergraduate with strong foundations in object-oriented programming, data structures, and Android development. Skilled in building mobile applications using Java, Kotlin, Jetpack Compose, and Firebase. Passionate about solving real-world problems and continuously learning modern technologies.

SKILLS

Programming: Java, Kotlin, C++, Dart

Mobile Development: Android Development, Jetpack Compose, XML, RestAPIs

Databases: SQLite, MySQL, Firebase

Concepts: Data Structures, Algorithms, OOP, Problem Solving

EDUCATION

Bachelor of Software Engineering (Undergraduate , 7th Semester)

CGPA: 3.45

Mehran University of Engineering and Technology, Jamshoro

Intermediate, Aims School and College, Matli

EXPERIENCE

Android Development Intern At Internee.pk

(2 Months)

- Developed Android applications using Java and Kotlin.
- Applied debugging techniques to identify and fix runtime issues.
- Gained experience working with real-world development workflows and version control.

PROJECTS

Incident Reporting System / App

GitHub

- Built Android app for reporting incidents with images and descriptions.
- Implemented role-based access for Admin and Student users.
- Designed admin panel to review, manage, and update incident statuses.

AI-Powered Resume Scoring App

GitHub

- Developed resume analysis app using keyword matching and scoring techniques.
- Integrated NLP-based processing using ML Kit.
- Built admin interface to display candidates and their evaluation scores.

TOOLS

Android Studio, VS Code, MySQL Workbench, Git, GitHub, MS Office, Cisco Packet Tracer , Firebase Firestore
